## ABOUT WOOD COATING

Wood coating, also known as Topcoat, is applied over the wooden surfaces to protect the surface from water, sun, grease, dust and household chemicals. Topcoats are essentially clear, and are often polyurethane based that gives your furniture a glossy or matte finish, and improves the life span of the paint as well as the wood underneath. The wood coating can be applied with a brush or spray machine. You should apply 2-3 coats of it, and allow sufficient drying time in between for the best results. ECOTOUCH Paints offers a wide range of wood coatings and wood primers for all types of wooden surfaces.

### AVAILABLE

- SANDING SEALER
- BROWN SEALER
- T.T. CLEAR
- SUPER CLEAR
- T.T. MATT CLEAR

# WOOD COATING
